

Dear Prospective Cosmetic Tattoo Client,

It is with great pleasure that I write a testimonial about the work done by Lisa Nyguyun at the International Beauty Academy.

Seven years ago, after having my first child, I embarked on the world of cosmetic tattooing. I perceived the benefits to be that I would only have to spend minimal time getting ready for work etc, as half the work (the fiddly stuff- eyeliner and eyebrows would already be done)

After doing my research off I went to a prominent cosmetic tattoo centre in the city. After paying a small fortune I walked out with somewhat uneven and hardly visible eyeliner and eyebrows.

Five years later, while visiting a beauty salon the operator of the salon commented on my eyeliner and then showed me hers. I was astounded. Not only did it look gorgeous but it was perfectly shaped and so natural (and so far away from the job I had had done five years prior) I took the name and number of the cosmetic tattoo artist and rang straight away.

It was with some trepidation that I ventured out to Cabramatta to see Lisa Nyugen. But I can assure you it was well worth it. On the first visit I had my eyebrows and eyeliner done. Lisa was able to shape both exactly as I asked her to do and the result was perfect.

Recently, I went back to have my lips done and this time I left the decision of both colour and shape in the hands of Lisa. The result was once again, perfect.

It is with pleasure that I write this testimony for others to read as I know that Lisa is wonderful at what she does. She has had many, many years experience, is fully qualified having trained extensively in the US and Australia (unlike some others who may be practising) and her establishment is professional and very importantly, meets all hygiene standards as required.

I have since referred many of my friends and associates to Lisa with the same results and feedback.

Now, when getting ready, all I have to do is pop on some mineral powder, a bit of eyeshadow (for special occasions) and some lip gloss and I'm 'good to go'

Forever in appreciation

Marie King
